

How to check out a free library eBook to your Kindle:

Visit the Overdrive website by navigating to www.rockportlibrary.org. Drop down the menu under the blue "Catalog" tab and click 'Audiobooks and eBooks.'

Click on 'My Digital Account' and sign into Overdrive with your library card number. Signing in first thing assures that you see the books available only to Rockport cardholders in addition to the books available to all MVLC patrons.

Click on 'Home' to get back to the Overdrive Catalog. Browse the eBooks for a title you are interested in. If the book you want has a status of 'add to bookbag,' it means that it is available for immediate download. Once a title is in your bookbag, you have 30 minutes to check it out. You may 'continue browsing,' or 'proceed to check out'.

If a record's status is 'place a hold,' it is currently being used by another patron and you will be notified when it becomes available for checkout. You may also click on 'add to wish list.' This creates a personal list of books you may want to read in the future.

When you are through selecting books, open your Bookbag, proceed to Checkout, select a lending period and check out. Then click the 'Get for Kindle' button. This opens the Amazon.com website.

Click the 'Get Library Book' button. You may be required to sign in with your Amazon.com account if you are not already logged in. If you don't have an Amazon account, you can create one from this page.

Select the Kindle device or Kindle reading app where you want the book to be delivered. Click the 'Continue' button and you will now see a thank you message stating that your public library book has been delivered.

An active Wi-Fi connection is required for wireless delivery to a Kindle device. Using a WiFi connection, sync your device or app to download the book.
